About This Game

You are tasked to destroy the swarms of alien invaders as they attempt to annihilate your race from existence. Continue the battle where you left off in Nova Wing, Now that the dreadnoughts are destroyed you can destroy what remains of the enemy fleets.

Key Features

- Play with other players on your LAN (local area network), Or two players on the same PC.
- Upgrade your ship as you play, Improving your shields and firepower.
- Twin-stick or Single-stick mode, Control your ship and shoot through the cross-hairs in twin-stick mode, Or simply set it to a straight up shooter.
- Compare your scores to your friends and other Steam players.

****Note:-**

For two players on the same PC at least one player will need to use a controller.

Two player Lan requires 100 Mbps for a smooth experience. The quality of your network will effect the smoothness of your gaming experience, players must also operate at the same aspect ratio, As to avoid stretching or compression on the client machine.

English

Do you remember that arcade game from the 80s where you could get 2 ships connected together and you were shooting alien ships? That was my favorite arcade game.

This is as close to that game as I can find on Steam. Worth \$1.. Space Invaders meets Raiden, but without the fancy guns and bombs :(

RMB only changes the spread of the gun, and only a little.

Worth the dollar though.
